

Nama : Hanifah Putri Trisnawati

Nim : 2200018217

The screenshot shows the Android Studio interface with the code editor displaying the `WargaAdapter.kt` file. The code defines a RecyclerView adapter for displaying resident data. On the right side, there is a data entry form titled "Data Kewarganegaraan Indonesia". The form fields include:

- Nama: hanifah
- NIK: 12345
- Kabupaten: sragen
- Kecamatan: sidohajo
- Desa: sengon
- RT: 21
- RW: 05
- Jenis Kelamin:
 - Laki-Laki
 - Perempuan
- Status Pernikahan:
 - Belum Menikah
 - Ternikah

Below the form, a message box displays:

Daftar Warga Negara:
1. hanifah (Perempuan) - Belum Menikah
NIK: 12345
Alamat: RT 21/RW 05, sengon, sidohajo, sragen

This screenshot is nearly identical to the one above, showing the same code editor and data entry form. The data entry form has been cleared or modified, showing placeholder text for each field:

- Nama Lengkap
- NIK
- Kabupaten
- Kecamatan
- Desa
- RT
- RW

The status message at the bottom of the form area is now empty.
